

Dr. Markus MACKENBROCK

Markus MACKENBROCK works for the Federal Office for Information Security (BSI), Germany. Markus has studied physics and after a few years experience in the private sector Markus started to work for BSI in 1993. He was involved in the development of the Common Criteria from the beginning. Since 2002 he is head of the unit Accreditation and responsible for the accreditation of testing laboratories for conducting CC evaluations under the German scheme. In addition, Markus is involved in developing Protection Profiles (PP), especially for the German Health System.

Nigel Whittaker-AXON

Nigel is a Lead Certifier in the CESG Certification Body (CB) of the UK IT Security Evaluation and Certification Scheme. He represents the CB on the CC Maintenance Board and the UK's CC Support Group. He previously represented the CB on the Joint Interpretations Working Group.

Nigel hosted the recent successful CCRA Voluntary Periodic Assessment (VPA) of the UK Scheme. He has also contributed to various VPA and Shadowing assessments of other countries' schemes, as Lead Assessor or 2nd Assessor.

His previous experience ranges from systems analysis and design, through to roles as Senior Evaluator, Training Manager and Assurance Manager for operating companies of Admiral plc (now part of Logica plc). He then ran his own company for several years, providing certification consultancy to the CB, before joining them as a Certifier.

Nigel has a BA degree in Philosophy and Biblical Studies from the University of Wales, and a Postgraduate Diploma in Management from the University of Bradford, where he specialized in Management Science. He is a Chartered Quality Professional (CQP), a Member of the Chartered Quality Institute (MCQI) and an Associate of the Institute of Information Security Professionals (A.Inst.ISP).

M Azad NASSOR

M Azad Nassor works at ANSSI (French Network and Information Security Agency) as Certifier in the Certification Body that he has joined on June 2008. Before that, he had worked for several private, or partly public, companies in the field of IT Security as:

- in charge of PKI Certification Authority (French Health Practitioners Group, Smart Card Manufacturer Company, other companies);
- Security Officer for a Financial Advisory and Asset Management Bank;
- Security Software Developer for an IT company.

M Azad NASSOR is graduated of ENSI Caen (IT engineer school).

Shahrina SHAHARI

Shahrina Shahrin (prefer to be track chair for Track B) Shahrina Shahrin is currently Certifier of Malaysian Common Criteria Certification Body (MyCB), a department within CyberSecurity Malaysia. She joined CyberSecurity Malaysia in July 2008. Currently, she is responsible in the security evaluation and certification services under Malaysian Common Criteria Evaluation and Certification (MyCC) Scheme.

Prior to joining CyberSecurity Malaysia, Shahrina has served the industry in research and development where she was responsible for both low-level software (firmware and OS) and hardware of several CAD and mobile base product as an Embedded Software Engineer. She has gained invaluable knowledge and experiences in electronic design development and integration, system design and testing, software and hardware integration and implementation, as well as production of the devices. In the firmware development, she had hands-on experience on several development kits and compilers, such as Keil, Hitachi, ST, and Microchip. On GSM she had developed several GSM base drivers and application interacting with the GSM module through AT command. For OS system testing she had worked on embedded Visual C++ for the development of Windows eVC, Windows Mobile 4.2 to Windows Mobile 5 based OS.

Shahrina holds a Bachelor's degree with honors in Electrical Engineering from University of Technology MARA, Malaysia. And she also graduated with Diploma in Electronic Engineering from University of Technology Malaysia.

Norhazimah ABDUL MALEK

Norhazimah Abdul Malek (prefer to be track chair for Track A) Norhazimah Abdul Malek is currently the Head of Malaysian Common Criteria Certification Body (MyCB), a department within CyberSecurity Malaysia. She joined the National ICT Security and Emergency Response Centre (NISER) as a Security Assurance Analyst in June 2005. NISER was officially rebranded to CyberSecurity Malaysia on 30 Mar 2007. Currently, she is responsible in the development and management of the security evaluation and certification scheme for Malaysia based on the Common Criteria or ISO/IEC 15408 requirements.

Prior to joining CyberSecurity Malaysia, Norhazimah has served the private organizations where she was responsible for developing applications based on customer requirements. She has gained invaluable knowledge and experiences in project management, technical deployment to system analysis, design, development and implementation, especially for web base projects, and windows base application.

Norhazimah holds a Bachelor's degree in Computer Science from University Science of Malaysia (USM), Malaysia. She is a GIAC Certified Incident Handler (GCIH) by the SANS Institute, USA and STANDARDS MALAYSIA Technical Assessor of laboratory based on ISO/IEC 17025.

Pablo FRANCO

He joined the Spanish National Communication Security Agency as INFOSEC expert from the Spanish Air Force in 2001.

At this position, he has acted as INFOSEC officer, attending several national and international working groups related with security of Information Technology Systems, and teaching at some of the training courses about INFOSEC for civil servants.

Since 2004, when the Spanish Certification Body was built, he is acting as Quality Manager and Certifier and he has participated, as team leader, in the Shadow Audit of Italian Scheme and, as observer, in the last French Scheme VPA.
